

4/28/99

Dear Commissioner,

Please ban the use of antibiotics in cattle feed and the use of growth hormones.

We depend on you to protect our health and that of our children. Please consider the consequences of resistance to antibiotics in bacteria.

Thank you

Sincerely

Leslie & Harry Adler

As a member of the Center for the Public Interest (CSPI), I urge you to save human lives by banning the use of medically useful antibiotics in animal feed. Adding antibiotics to feed in order to promote growth can make bacteria resistant to those antibiotics. And that can leave physicians with no way to treat life-threatening bacterial infections in humans. That's why I support the petition filed by CSPI.
